BRISBANE.

POPULATION - - - - 141,342

(WITHIN A 10-MILE RADIUS).

BRISBANE, the Capital of Queensland, is the most picturesque city in the Commonwealth. It is situated on the Brisbane River, about 18 miles from its mouth. Its climate closely resembles that of Southern Europe—that is to say, it enjoys one of the mildest temperatures in the world. Besides being the Metropolis of the State, Brisbane is the port and trade centre of many fertile districts. Behind it, to the immediate west, is the rich Moreton District—a flourishing province devoted to farming, stockraising, dairying, and coalmining. Beyond it again, across the Great Dividing Range, stretches the far-famed Darling Downs: 4,000,000 acres of the finest agricultural land, equal in area to the American States of Illinois and Missouri.

The Brisbane River is spanned by an imposing iron bridge, 1,022 feet in length, 74 feet in width, erected at a cost of £109,326.

The city contains many fine parks and recreation grounds, the principal being Queen's Park and Botanic Gardens, the Acclimatisation Society's Gardens, Albert Park, Musgrave Park (South Brisbane), Brisbane Cricket Grounds (Five Ways), Victoria Park, and several others.

Many charming seaside resorts are within easy distance of the Metropolis, the principal being Cleveland, Humphryong, Redcliffe, Manly, Sandgate, Wellington Point, Wynnum, Southport, and Tweed Heads.

A fuller description of Brisbane will be found in the pamphlet, "Pocket Brisbane," issued by the Intelligence and Tourist Bureau, and which may be had on application at the office of the Bureau.

BUNDABERG (pop. 11,988).				
An important town on North Coast Railway line, 217 miles from Brisbane. A rich agricultural, dairying, and sugar-growing district. The town is situated on both banks of the Burnett River, which is spanned by two bridges. Steamers of considerable size can navigate the river up to the town wharves. Sand Hills, distant 7 miles, Burnett Heads, distant 8 miles, and Barolin Coast, distant 14 miles, are well worth visiting. The drive to either place is delightful. Good fishing in the Burnett River.	* Commercial Hotel (40) ...	W. J. Corrigan ...	5/-	25/-

CAIRNS (pop. 6,524).

An important seaport on Trinity Bay, 908 miles north of Brisbane, and 160 miles north of Townsville. Splendid harbour. One of the best known tourist resorts in Queensland. The centre of a rich agricultural district. Within easy reach of the town are several large sugar plantations and two important sugar-mills, which are most interesting to visitors. The export of fruit, notably bananas, is very large. The country at the back of Cairns is one of the richest mineral districts in the State, and is being largely developed. For the tourist the district has many charms. The scenery along the railway line includes wonderful scrub country, grand mountain scenery, and the famous Stony Creek and Barron Falls. Further inland, at a distance of 68 miles, is Atherton, one of the finest districts in the State. Lake Eacham is within easy reach of Atherton. The Herberton district is also worth a visit. Tourists can comfortably enjoy a stay of ten days in the district. The Kamerunga State Nursery is well worth seeing. Innot Hot Springs at Herberton, and Chillagoe Caves should also be visited.

Queensland, "The Wonderland of Australia,"

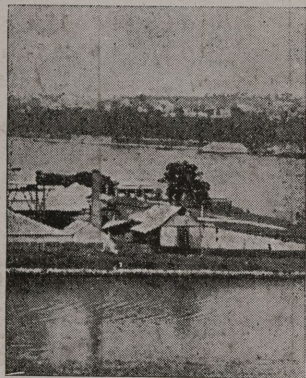

Unrivalled in Pastoral, Agricultural, and Mineral Resources.

The Great North-Eastern State, which contains almost every variety of soil and climate, is every year becoming more and more recognised as an Ideal Tourist Resort.

During the months, April to September, no more enjoyable trip can be taken than along the picturesque eastern seaboard of Australia. The marvellous beauty of the famous Whitsunday and Hinchinbrook Passages, with their numerous islands, is unsurpassed in any part of the world. A week's trip inland from Cairns reveals a country of extraordinary grandeur and richness in timbers, minerals, etc. The climate of the Atherton Tableland (from 2,000 to 3,000 feet above sea level) is unequalled in Australia.

The Barron Falls, Stony Creek Falls, Tully Falls, are noted throughout the Commonwealth for their beauty.

Tourists should land at Rockhampton to view the Central District of Queensland. That

world's wonder, the Mount Morgan Gold Mine, which has paid £8,000,000 since its discovery in 1886, in dividends, is within easy reach of Rockhampton.

The railway journey from Rockhampton to Brisbane takes the Tourist through a most interesting part of the State. The beautiful flora of the Blackall Range (between Gympie and Brisbane) discloses the wonderful fertility of this portion of Queensland.

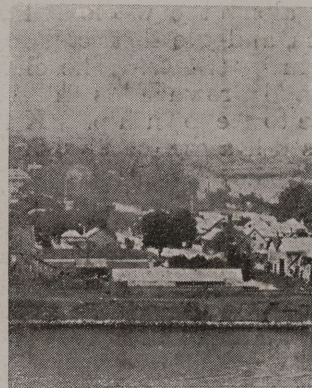

The famous Darling Downs can be reached by train from Brisbane in four hours. Toowoomba, the capital of the Darling Downs, is one of the most picturesque and important inland cities of the Commonwealth. Warwick and the Killarney District are also worthy of the attention of Tourists.

Descriptive pamphlets, and full particulars as to the best arrangements to make regarding any trip in the State, can be obtained on personal application or by letter to

The Director . . .

Intelligence and Tourist Bureau,

corner Queen and George Streets, Brisbane.

MACKAY — <i>continued.</i>				
surrounding district is one of the finest for sugar-growing in the Commonwealth. Dairying and agriculture are also important industries, and these will undoubtedly increase rapidly as the rich scrub lands are thrown open to selection. The fact that the coastal steamers cannot go to the town wharves (which are reached by tender) has prevented Mackay receiving that attention from tourists and other visitors which it well deserves. Some beautiful drives can be had around Mackay, and the district will interest every class of visitors. The climate is healthy, and the town well supplied with water. Coffee is successfully grown in the district. Eungella Range (health resort) is close handy. Plenty of fishing, shooting, boating.	Excelsior Hotel [Eungella Range, health resort]	W. T. Eyles

REDCLIFFE (pop. 1,129).				
<p>A popular seaside resort on the north side of Moreton Bay, and about 30 miles from Brisbane. A well-appointed steamer plies regularly between Brisbane and Redcliffe, and a motor boat also plies between Sandgate and Woody Point. Redcliffe is beautifully situated, and has many attractions. Beautiful sandy beaches, good fishing, safe boating and bathing, and beautiful drives provide a charming variety for visitors. During the summer months the steamer runs daily from Brisbane. Redcliffe may also be reached by regular coach, which leaves North Pine (North Coast Railway) daily at 9.30 a.m. Fare—Single, 2/-; return, 4/-. The distance from North Pine Railway Station to Redcliffe is 12 miles.</p> <p>REDLAND BAY (pop. 300).</p> <p>A coast town on the southern portion of Moreton Bay. Reached by rail from Brisbane to Cleveland, thence by wagonette. Fare, 2/6 return (8 miles). The district is well suited for agriculture and fruitgrowing, the pineapple industry being an important one. ROCKHAMPTON (pop. 20,915).				
The commercial capital of Central Queensland ; 396 miles from Brisbane, on the North Coast Railway. The city is situated on the Fitzroy River, which is navigable up to the city wharves. Rockhampton is the outlet for a district marvellously rich in agriculture, dairying, pastoral, and mining industries. The streets are well laid out. The rails are being laid for an up-to-date steam tram system. Rockhampton has beautiful surroundings, and its Botanical Gardens are the finest in the State. The city has a plentiful water supply, and is lighted at night by gas and electricity. There are many beauty spots in the district. Good shooting, fishing. Alligators abound in the rivers and creeks.	*Commercial Hotel (70) ...	Leah Johnson ...	8/-	56/-

ROMA (pop. 2,842).				
An important town on the Western Railway, 318 miles west from Brisbane. A noted wheatgrowing district. Vinegrowing is also successfully carried on. The climate is healthy. The town is well supplied with water from two artesian bores which have a daily flow of about 400,000 gallons. The town was also supplied with gas from one of these bores, but the supply has been temporarily stopped owing to an obstruction in the bore. A private company, which has been boring for oil, has struck an enormous supply of natural gas. It is anticipated that when the bore is sunk to a greater depth a supply of natural oil will be obtained. Roma is surrounded by a very rich pastoral district. There is a State experimental farm about 4 miles from town.
